Where is Abhar? Abhar tourist attractions
Abhar city is located in Zanjan province with an ancient history. Archaeologists consider this city as one of the first settlements in Iran due to the archeological monuments, which have been left in it from different periods. During the Ilkhanate, the city flourished economically due to important intercity roads. Travel to Abhar city is a trip to a world of historical and natural attractions. In the following, we will talk more about Abhar sights and tourist attractions of Abhar.

Alghadir Hospital

Amongst the ZUMS's leading hospitals; Alghadir Hospital is the third biggest Hospital in Zanjan province and the biggest care-giving facility in Abhar. The facility emphasizes on providing high-quality medical care to patients at one of the quietest and most desirable Location in the city.

Considering local need for medical and paramedical education; educational facilities were built around this center. Based on the needs and developments in medical care the hospital has been regularly upgrading its facilities from diagnostic and therapeutic angles in all specialties.

This Hospital is a Central Government Hospital under the Ministry of Health & Family Welfare and located on the southeast of Abhar 2 of Aznab -Abhar road and started to work under the supervision of the ministry of health and Zanjan University on August 2017.

Indeed, the hospital offers a variety of prime and specialty care for patients at any age range facing disease and complaint. Throughout the whole hospital, an immense coordination of critical care specialists and professional physicians, has been brought together to best convey easy and available health care services to our esteemed patients.
THE SERVICES AVAILABLE:
The hospital provides services in various specialties and Super Specialties covering almost all major disciplines like Neurology, Urology, Neurosurgery, Nephrology, and Respiratory Medicine, Pediatric Surgery, gastroenterology, Cardiology, Diabetic Clinic. Further, it has CT Scan, MRI, Color Doppler, Digital X-ray, Digital X-ray Machine are also running in this hospital.

IN-PATIENT SERVICES

The hospital has total bed strength of 200 including bassinets. There are in addition Observation beds for medical and surgical patients in the Hospital.

As a policy, the hospital does not refuse admission if indicated to any patient in the causality. As a major shift in policy decision, the casualty is now run by post graduate doctors from the disciplines of Medicine, Surgery, Pediatrics, Orthopedics and Neuro-Surgery that are available round the clock in the causality to provide emergency care. There is a 24 hour laboratory facility besides round the clock ECG. Ultrasound, X-ray & CT Scan services.
TRANSPORT SERVICES
ALGHADIR Hospital has 2 Ambulances which are available for emergency services Round the clock.
The other newly acquired ambulances will be used as patient transport
Ambulances for needy patients. Besides other vehicles are available which include Buses and Staff cars and ...

Introduction of special unit:

About IPD (international patient department):

| Physician OF IPD: doctor javad hosseinkhani(infectious disease specialist) (email: drjavadhosseinkhani@gmail.com). |
| Expert of IPD: Seyedeh Roya Mousavi (master degree of nursing in medical surgical majoring) (Email: Royamousavi4892@gmail.com) (phone number: 09199802204) |
The health tourism unit of this hospital will help you in accessing medical services. This unit has been established to organize patients according to international standards in order to save hospital time and costs in order to provide acceptable and worthy treatment to patients.

According to the definitions of the World Tourism Organization (UN-WTO), one of the goals that can motivate a tourist to travel is to travel for health. In this way, a tourist can use the destination's medical services to achieve her/his physical and mental health by traveling from her permanent place of residence.

What is called health tourism with health tourism.

In this regard, the outpatient admission unit (IPD) of the hospital has been established to provide medical tourism services that are suitable for outpatients. This unit acts as a counter for the hospital to communicate with foreign patients from the first call to receive treatment and follow up postoperative care.

The function of this unit (IPD) is as follows:
1- Responding to patients, including telephone communication, email or receiving a request through the hospital website
2- Coordinating with the treating physician and all units responsible for treating the patient (including admission, paraclinics, operating room, CCU ICU inpatient wards, discharge, etc.) to facilitate the process of diagnosis and treatment of the patient
3- Estimate the approximate cost of treatment and report it to the patient or patient referral company before the trip
4- Communication with patient referral companies and interaction based on a valid contract

Therefore, Al-Ghadir Abhar Hospital, in order to provide better services to international patients, has equipped several rooms with VIP services, which provide different services from routine services in other parts of the hospital.
